

News Release

HID Global Showcases Industry Leading Portfolio of Physical Access, Secure Issuance and Authentication Solutions at Security 2011 Exhibition

Company Will Preview Its Next-Generation Access Control Technology

Sydney, Security Exhibition 2011 (Booth #D33) – August 23, 2011 – [HID Global](#), trusted leader in solutions for the delivery of secure identity, is continuing its drive to deliver innovative products and solutions at tomorrow's Security 2011 Exhibition. The company will preview its new readers and credentials as part of HID's next-generation iCLASS SIO-Enabled™ (SE) access control platform that is based on the company's new, portable identity model for advanced security, increased mobility and enhanced performance. The new, portable identity model revolutionises the implementation of high security readers and credentials while enabling the use of digital credentials on mobile devices.

HID Global will also showcase a variety of solutions for physical access, secure issuance, and the company's [ActivIdentity™](#) authentication and credential management solutions at booth #D33 at the Sydney Convention and Exhibition Centre from August 24-26. Key demonstrations at Security 2011 include:

- **The Next Generation of Access Control:** iCLASS® SE technology platform is designed to raise the bar for card-to-reader security while supporting key emerging technologies and delivering superior performance, enhanced usability and increased environmental sustainability.
- **Printing and Encoding Solutions:** [HID's FARGO® card printers/encoders](#), including high definition HDP5000 printers and the new direct-to-card printer/encoders. The printers produce reliable, professional quality, personalised colour ID cards and security encoding all in one pass. Asure ID® 7 photo card software with enhanced user experience and added functionality designed to extend ease of use, convenience and productivity.
- **Authentication Solutions:** The solutions issue and manage the lifecycle of Personal Identification Verification (PIV) Cards for the delivery of fully integrated physical access control and IT security solutions, eliminating the hassle of having to remember multiple user names and passwords for all of the different applications an individual might access.
- **Migration Solutions:** The latest migration readers enable organisations to bridge the gap between legacy solutions and secure 13.56 MHz MIFARE™, DESFire® EV1 and iCLASS® contactless technologies and deploy multiple applications on single credential.

- **Networked Access Solutions:** HID Global's networked access solutions, including [EDGE®](#) and [VertX®](#) networked access controllers. Designed to meet the demands of open architecture, IP-centric environments, the controllers can be configured for a variety of access control applications.

Security 2011 Exhibition attendees who visit HID Global's booth and complete a questionnaire will be entered in a draw to win an iPad® 2.

About HID Global

HID Global is the trusted source for secure identity solutions for millions of customers around the world. Recognized for robust quality, innovative designs and industry leadership, HID Global is the supplier of choice for OEMs, system integrators, and application developers serving a variety of markets. These markets include physical and logical access control, including strong authentication and credential management; card printing and personalisation; highly secure government ID; and identification technologies used in animal ID and industry and logistics applications. The company's primary brands include HID®, ActivIdentity™, FARGO®, and LaserCard®. Headquartered in Irvine, California, HID Global has over 2,100 employees worldwide and operates international offices that support more than 100 countries. HID Global is an ASSA ABLOY Group brand.
