

## **Security 2011 Exhibition Emphasises Government Focus With SCEC Endorsed Products And Services**

### ***Security Construction and Equipment Committee's numeric rating system protects Australian Government resources***

**SYDNEY – July 19, 2011** – Diversified Exhibitions Australia today announced that Security 2011 Exhibition (August 24 – 26, Sydney Convention & Exhibition Centre) will feature an extensive selection of SCEC (Security Construction and Equipment Committee) endorsed products and services from leading Australian and international manufacturers.

The Security Construction and Equipment Committee is a standing interdepartmental committee responsible for the evaluation of security equipment for use by Australian Government departments and agencies. SCEC reports to the Attorney General's Protective Security Policy Committee, which was established by the Australian Government to develop and establish guidelines for protection of Australian Government resource.

Applying a Good, Better, Best philosophy, SCEC uses a numeric rating system for physical security products. The rating indicates the relative security strength of a particular product, with Security Level 4 being the most secure through to Security Level 1 the least.

Some of the SCEC endorsed products featured at Security 2011 Exhibition include:

- **Intrepid MicroPoint Cable Perimeter Security System**

[Perimeter Systems Australia](#) Stand C23

Intrepid MicroPoint Cable will detect any fence disturbance and locates it to within 3M. Precise location allows proprietary digital signal processing (DSP) algorithms to detect any attempt to cut or climb the fence while ignoring distributed noise from wind, rain or heavy vehicles. Reliable fence detection is assured.

- **TruckStopper**

[Ezi Security Systems](#) Stand D 51

The EZI TruckStopper™ offers bi-directional protection, fast movement speeds of up to 1.5 metres per second and the highest levels proven impact resistance. Has been tested by independent authorities, has stopped 7.8 tonne trucks at 82.7kph. Has US K12 and UK PAS 68 rating and has received Australian Government SCEC endorsement.

- **Shallow mount bollards**

[Leda Security Products Pty Ltd](#) Stand 14 & 15

Leda Security specialises in the supply and installation of impact tested bollards. A new range of Super Shallow bollards is now available and will be on display at the trade show stand.

- **Star Track's SAFE HAND & OVERNIGHT Courier Services**

[Star Track Express](#) Stand J8

Star Track Express is SCEC Endorsed for SAFE HAND (Person To Person) and OVERNIGHT Courier Services. Star Track's services are used by defence and government agencies, law firms, medical services, manufacturing industry and can be customised to suit any special requirements or security protocol.

- **PB-IN100AT**

[TAKEX America Inc](#) Stand D29

The PB-IN-100AT is designed with high security applications in mind, where attempts to crawl through a portion of the beam result in an alarm condition. Through CPU processing, this unique product uses separate response times based on the size of its target.

- **Siemens GM730 Seismic Detector**

[Alarmcorp](#) Stand E2

The Siemens GM730 Seismic is the only SCEC Approved seismic detector, with applications ranging from ram raid protection of any solid wall construction to ammunition storage facilities. Commercial applications include the financial market for use in ATM's, Safes and Vaults. Other uses include vending and ticket machines.

- **abus 83/80 series padlock**

[lsc](#) Stand c28

The Abus 83/80 series padlock has been SCEC endorsed for secure areas (if done in accordance with SCEC conditions). These padlocks feature an 80mm chrome plated hardened steel lock body along with a 15mm dia special alloy steel shackle for maximum security.

- **Thermal Image sensor PTZ System**

[Changzhou Minking Electronics Co.,Ltd.](#) Stand K8

Applying with FLIR thermal imaging sensor, 19mm, 25mm, 35mm, 50mm thermal lens for option, it could reach to 2.2 KM(Max).

- **Tool Less Roto Seal**

[Harcor Security Seals](#) Stand F15

SCEC endorsed with two component acrylic seal. Wire rotates around insert. Laser etched 3 digit number on insert that matches last 3 digits of serial numbers. Attached stainless steel wire up to 304.8mm long. Spools or precut lengths of wire or plastic coated galvanized wire also available.

- **Professional Series Trittech Detectors**

[Bosch Security Systems](#) Stand D30

Bosch Professional Series Trittech Detectors featuring Sensor Data Fusion (advanced sensor technology algorithms that improve catch performance by 35 percent) and MANTIS (anti masking) technologies, have received numerous accolades world-wide since their release and now are SCEC approved at the Security Level 2 (Intruder Resistant Area equivalent).

- **LMS12x Laser Scanner**

[Sick Pty Ltd](#) Stand A29

LMS12x Laser Measurement System: Small and economical option in SICK's family of laser measurement systems, and an alternative to other existing solutions, particularly when long range is not the highest priority. The innovation involved here is the double-pulse technology, which increases outdoor availability and even permits mounting behind glass.

- **Powdersafe Containment System**

[Powdersafe Pty Ltd](#) Stand A30

The Powdersafe Containment System is a fully portable containment system for mail suspected of containing unknown material.

“At Security 2011, security specialists from the public sector will be able to view demonstrations from SCEC endorsed manufacturers; workshop and develop specific security solutions one-on-one; and explore and interact with a broad range of SCEC endorsed products,” said Kobe Johns, Exhibition Manager for Security 2011 Exhibition at Diversified Exhibitions Australia.

## **About Security 2011 Exhibition**

Security 2011 Exhibition is the must-attend trade show for security professionals in Asia Pacific. Now in its 26<sup>th</sup> year, Security 2011 is expected to attract more than 4,500 visitors from government and private enterprises, including security consultants, facilities managers, security and safety officers and installers. The 2010 exhibition attendees had a combined buying power of more than \$10 billion.

More than 110 companies have already secured their place at Security 2011 Exhibition, including leading brands such as Assa Abloy, ADI Global Distribution, Mobotix, Dedicated Micros, Genetec, NESS, AXIS, Motorola, Geutebruck, Identive Group, and Gallagher Security.

Security 2011 Exhibition is endorsed by the industry's peak body, the Australian Security Industry Association Limited (ASIAL). Register to attend at <http://www.securityexpo.com.au> for your chance to win a Fujifilm 3D camera and viewer pack, valued at \$1,269, or 1 of 2 Q Video Systems prize packs featuring a QVS-DBM-25F Dome Camera, Free Diplomat Safe and Free home or business security consultation, prize packages valued at \$1,366 each.<sup>1</sup>

**- ENDS -**

---

<sup>1</sup> Prize terms & conditions: NSW Permit No LTPS/11/06128. One entry per visit. Prize is not refundable for cash. Winner will be drawn at 11am on Monday 29th August 2011 and will be notified by phone.
